PROFILE OF TASAM

TASAM - Turkish Asian Center for Strategic Studies, which has been operating in the institutional body of a NGO as a “think tank” for nineteen years, has become an international “Turkish Brand”. Hundreds of doyen and respectable experts and academicians contribute to TASAM’s activities in its main management and scientific or wise persons boards of its institutes, programs and projects. Each taken initiative is managed with a strong institutionalization will and is supported by numerous instruments.

On the foreign policy field, TASAM acts under 11 different titles. These fields are continently Africa, Asia, Europe, Latin America and Caribbean and North America. The regional ones are Balkans, Middle East, Mediterranean and Black Sea - Caucasus which are - in every parameter- the security zone of these four continents in terms of Turkey. Also Turkic World and Islamic World are called as identical fields.

The Strategic Vision Awards to be given for the 13th time by TASAM, the Turkic World Red-Apple Awards to be given for the 4th time and the Islamic World Istanbul Awards to be given for the 4th time are becoming institutionalized as getting stronger year by year. According to their categories, reputability of the awards given to countless heads of state, strategic institutions and individuals is appreciated at all levels.

The studies, with three main titles as Macro Process, Strategic Locomotive Sectors and Development of Values, of the “Turkey’s Strategic Vision 2023 (TSV2023)” Project, which began 13 years ago under the auspices of the Presidency of the Turkish Republic and initiative of TASAM, were revised with the main theme of Turkey 2053 “Power and Justice”.

The "Sectoral Institutes", many of which were firstly established in Turkey, form a new business model for the innovation of macro policies and sectors.

To encourage all institutions/firms, which promise the potential, to take stronger and fertile initiatives in their fields, TASAM started CIVIL GLOBAL | Global Civil Diplomacy Building Program, whose main theme was described as “Discovering the Potential” and it serves to mobilize the civil capacity with its all channels globally and to form networks with 19 sectorial descriptions.
The institutes, networks and platforms developed and institutionalized on various scales multilaterally, run their activities - according to the relevant management system - under the roof of TASAM WORLD Academy and Innovation Group.

**TASAM DEMOS** is an organization that addresses all aspects of democracy, human rights and the rule of law. It has the reference of making an active and proactive strategic contribution to the development of universal values and the preparation of future decision-makers to the critical thinking and merit-based social competition by simulating the basic national and international governance units.

As a “first generation” corporation, **TASAM BGC Business and Government Consultancy** (based on the infrastructure of a think-tank with global interest) provides specific services as strategic consultancy, economic intelligence, network & business development, brain bank, technology management, macro and sectorial future / futuristic planning, innovative marketing management, security - defense and space industry to national and international actors and institutions.

To be established based on all the experience, know-how, expertise and infrastructure of TASAM at inland and abroad, **TASAM Turkey Excellence Centers** intends to organize and promote local capacity (by developing and implementing ideas and projects in their provinces/regions), to enhance competitiveness and brand value of Turkey’s each province (by implementing strategic vision development programs and thus forming managerial synergies), and to make significant contributions to their reflections in economic, political and diplomatic fields.

The results of **TASAM institutionalization, which has been built for our today and future, and for public benefit, with the concern of transmitting it to the new generations with extraordinary effort and devotion in last 19 years** are shortly presented in the **2004-2021 TASAM Activity Report**. We are sincerely grateful for the interest, trust and support that you have given us.
INSTITUTIONAL STRUCTURE

Chairman of TASAM
Süleyman ŞENSOY

Vice Chairman of TASAM
Ambassador (R) Murat BİLHAN
Vice Chairman of TASAM
Assoc. Prof. Brig.-Gen. (R) Fahri ERENEL

Director of TASAM
Assoc. Prof. Engin SELÇUK
Director of TASAM WORLD
